

Hardwood & Plastic Deck Platform Trucks

PLASTIC DECK PLATFORM TRUCKS

Reinforced structural foam **Plastic Decks** are strong, lightweight and quieter rolling than steel deck trucks. An anti-skid deck surface and removable steel push handle helps retain cargo during transit. Decks have perimeter tie-down openings to help secure load. 11" deck height. Features 2 swivel, 2 rigid rubber casters. Load Capacity ranges from 1000 – 2500 lbs.

L"	W"	Capacity Lbs.	Model
36	24	1000	252812
52	25	2000	252814
60	30	2000	241437
60	30	2500	241438

HARDWOOD DECK PLATFORM TRUCKS

Hardwood Deck Platform Trucks are ideal for commercial, industrial and warehouse areas. Platforms are made with a 7/8" thick, kiln-dried sealed deck that is reinforced with cross battens for durability and feature a removable cross-braced tubular steel handle. Load Capacity ranges from 1000 – 2400 lbs. Different wheel options include **Pneumatic, Polyurethane and Rubber.**
