

WAREHOUSE MEZZANINES

STORAGE & SHELVING

DESCRIPTION:

Mezzanines are one of the most effective ways to maximize your plant or warehouse space. Increase storage and work area. Add an in-plant office. Renovate existing areas quickly and easily. Double your usable floor space. We offer a complete selection of standard and custom-configured mezzanines, pre-engineered and shipped ready to assemble. Order the precise length, width and height to meet your unique needs, with a variety of stairs and gates, including the added security of pivoting mezzanine safety gates. OSHA and IBC compliant versions are available. Wildeck is the largest mezzanine manufacturer in the U.S. to post to retain structural integrity. NOTE: Rails and posts are sold separately. Must order both rails and posts to build a complete safety guardrail.
